Teaching & learning methods used:

All tools for use in the class will be provided by the tutor. Each person will have a kit with basic tools available for use on the day and there are some specialised items that students will have to share during the session. Glass, silver wire and jewellery fixings will be required for your pieces and there will be materials costs of £20 payable to the tutor on the day

Course Details

A fun, hands-on workshop for anyone who would like to try working with glass. You will work with a number of pre-cut shapes of glass on the day and will also need to do a small amount of glass cutting. We will be making 6 decorations on the day – there will be 3 different designs and you will make 2 of each. As glass needs 8-12 hours in the kiln, your pieces will be taken home by the tutor and fired. They can then be collected from the school within a week.

How progress and success will be recorded:

Throughout the day, you will be supported by the tutor, who will encourage you to develop your cutting and design skills allowing you to become more confident which will show within your pieces
