Course Details

This day work shop is for everyone who has an overlocker but is unsure how to use it, finds the threading a nightmare or cannot get the tension right. During the work shop, threading will be made easy and tension explained so that it can be set correctly. You will then see how to adjust everything to ensure your overlocker makes a perfect stitch for everything you want to make. There will be sessions on how to seam and neaten a variety of fabrics, do rolled hems and use threads for decorative effects. Included in the course will be an opportunity to use the overlocker to make simple projects using the overlocker for most of the construction. At the end of the course you will be able to use your overlocker with confidence on whatever type of sewing that you do. It will speed up the processes and give your work a highly professional finish, so that you really will "Love your Overlocker".
